**CERTIFICATE OF QUALITY  
NONWOVEN MATERIAL**

All nonwovens are made from 100% short flax fiber. Short flax fiber is whipped, cleaned, and passed through stackers and needle punches. Only natural fiber is used, obtained in the process of primary processing of flax raw materials. Any chemicals are not used for the production.

The way how the non-woven material is produced also allows to keep high quality of products - it excludes visible thickenings and thinning, impurities, spots. The technical characteristics of the nonwoven material as well as the requirements for its packaging and transportation meet the requirements of each customer.

This non-woven material is suitable and in demand in the building of wooden and log houses. At the request of the buyer the produced rolls are cut into slices of the wished width.

<b>Art.</b>	<b>Thickness, mm</b>	<b>Material</b>	<b>Weight gr/m<sup>2</sup></b>
7L09	3 $\pm$ 0,5	100% linen	320
7L15	6 $\pm$ 1	100% linen	448
7L16	8 $\pm$ 1	100% linen	550
7L21	11 $\pm$ 1	100% linen	550
7L28	12 $\pm$ 1	100% linen	1000
7L17	15 $\pm$ 1	100% linen	1300
7L20	20 $\pm$ 1	100% linen	1400
