

5 May 2022

To whom it may concern:

Eco Safety Products has screened the following products and their ingredients against Per and Polyfluorinated Alkyl Substances (PFAS) / Perfluorinated Compounds (PFCs) as referenced by Pharos:

- Global Database of Per- and Polyfluoroalkyl Substances (PFASs) at <http://www.oecd.org/chemicalsafety/portal-perfluorinated-chemicals/>
- PFAS Master List of PFAS Substances (<https://comptox.epa.gov/dashboard/chemical-lists/PFASMASTER>), a consolidated list of PFAS substances compiled by the EPA and includes the EPA research list of PFAS compiled from internal, literature, and public sources; complete list of DMSO-solubilized PFAS in EPA's ToxCast inventory; a prioritized subset of the larger ToxCast chemical inventory; a list of chemicals procured but found to be insoluble in DMSO above 5mM; the OECD New Comprehensive Global Database; KEMI Swedish Chemicals Agency Report; compilation by community effort in 2015; structure-based Markush PFAS categories (capabilities under development); PFAS structures containing a specific defined substructures; and PFAS chemicals without explicit structures (polymers and other UVCB chemicals)
- Members of subgroups

**DuraSoy ONE Paint & Primer (all bases, all sheens)
DuraSoy PRO Paint & Primer (all bases, all sheens)
DuraSoy Ultra Flat Ceiling Paint
DuraBlock Stain Blocking Paint Primer**

These products do not contain the listed PFAS/PFC chemicals as screened at a minimum of 100 ppm.
