BioBased Tile®

COMMERCIAL FLOORING

BioBased Tile® (BBT) with patent-pending BioStride® polymer, is made with rapidly renewable, US-grown plant ingredients. Armstrong offers BBT as a non-PVC product option at an affordable price point. With the same proven, long product life as other resilient flooring materials, BBT has more than 5 times greater resistance to impact and more than 2.5 times greater resistance to cracking than standard composition tile. Migrations easily transitions from Imperial Texture® and is available in 12" x 12" format. Striations offers a unique linear visual in a 12" x 24" format. Armstrong® BBT is NSF/ANSI 332 Gold Level Certified and Striations was awarded Bronze in the 2011 International Design Awards (IDA).
